DETAILED ACTION

Drawings

1. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on 20 February 2003 have been approved. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

Claims

2. With regard to claim 1, the Examiner suggests Applicants insert a comma between the phrases "supporting said element" and "said element retainer having" in line 7 to improve the readability of the claim language.

3. With regard to claim 11, the Examiner suggests Applicants change the phrase "said retainer holder" in lines 8-9 to read as "said element holder" to improve the clarity and precision of the claim language. The Examiner notes that the term "said retainer holder" has been assumed to mean the element holder since the element holder (18) is shown as serving as both an element holder and a retainer holder in Fig. 2.

Likewise, with regard to claims 17-19, the Examiner suggests Applicants change the phrase "said retainer holder" in claim 17, line 3, claim 18, line 2, and claim 19, line 1 to read as "said element holder".

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claim 18 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 18 recites the retainer including a stay positioned at one end for mounting said retainer holder (element holder) relative to the case in lines 1-2. However, as shown in Fig. 2 of the instant application, the stay (27) is formed as part of the element holder (retainer holder) (18) and not as part of the retainer (21). Therefore, since the disclosure does not teach the retainer including a stay, the disclosure does not teach the limitations of claim 18. The Examiner suggests Applicants amend the claim to read as "... wherein said element holder includes a stay positioned at one end for mounting said element holder relative to said case..."

Allowable Subject Matter

6. Claims 1-6, 8-17, and 20-22 are allowed.
7. Claim 19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
8. Claim 18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
